www.visconf.com

Made in Italy, quality, design, professionalism
are the keywords that have always distinguished Visconf,
founded in 1948 by the Violanti family in the productive district of Florence.
After more than 70 years since the birth of the women's outerwear company,
the 4th generation is able to combine tradition, craftsmanship
and innovation in an industrial process.

Visconf, with its expertise and experience in the field
and its archive of models in continuous updating,
is able to offer a service of purposeful development of the concept and R/D support,
passing through all the various production phases,
such as modeling, prototyping, cutting, sewing, checking, finishing and testing, up to logistics.
